

## Manufacturers and Wet Processing Units: Apparel, Home Textiles, Shoes, Accessories (July 2018)

Tchibo publishes all of its primary manufacturing partners in apparel, home textiles, shoes and accessories and the wet processing units they make use of biannually, including their full names, locations, countries. Employee numbers are surveyed at manufacturers but not at separate wet processing companies.

### Manufacturers

Primary Manufactures are companies manufacturing the final or readymade textile products for Tchibo and have a direct relationship to Tchibo or via a supplier ("agency/importer"). They can constitute the end of a supply chain (Tier 1 or 2) by processing products of other companies – such as fabric, zippers, buttons – or are set up to handle most steps within their own factory ("vertical producers").

## Wet Processing Units

Wet processing units exist along the textile supply chain and include pre-treatment, dyeing, printing, finishing, garment finishing and washing as well as fibre/yarn/fabric production or tanning leather. Depending on manufacturers' specialization and facilities wet processing units are part of vertical producers or separate companies.
